Implementation of steel safes

CIE and ESSARP are committed to the improvement of the standards of security for the Cambridge examinations in Argentina. We are well aware that schools may find it difficult or onerous to provide a suitable safe, so ESSARP will make a bulk purchase of safes of sufficient capacity, and provide and install them free of charge in all Centres. We will be happy to answer any queries you may have about this new implementation. Please send an e-mail to exams@essarp.org.ar requesting further information!
